GOOD LUCK MESSAGE FROM THE PRINCIPAL

Dear Parents / Guardians,
Take our greetings!!

First of all, I would love to extend a very special 'fáilte' to all the parents and students who have joined Sri Bhagwan Mahaveer School (SBMS). We trust that they will spend many happy, beneficial and rewarding days with us.

Someone well said, "Take a break and chill because this is the time ... to rejoice, celebrate and also feel rewarded." Holidays are important for every student as it helps them to relax and also boost their creativity. The more they have family time, the more they can connect with their family members, relatives and friends. But our children do not have enough time to give to their family. They usually spend their time outside their home and so they are unable to spend time with their family. Hence, only holidays can give them a lot of time to spend with their family.

Parents, of course, are such a conspicuous part of all we hope to accomplish on behalf of our SBMS children. Thank you for entrusting us with your most precious gift. I am grateful to our wonderful, talented, creative, inquisitive, optimistic, resourceful and resilient children. Often, they make us laugh, sometimes they make us cry, but always they make us think. Most of all, they make us better.

In the spirit of this holiday season, once again I want to extend my thanks to all of you for everything that you do for our school. As we enjoy the upcoming holidays, it is my fervent wish that each of you receives and returns the bounty of blessings and glad tidings that make these days truly special. During this break, let our children radiate a sense of unbridled enthusiasm, untainted hope and unabashed joy for life and the opportunities that await them.

A blissful holiday to our loved children! Unwrap abundant joy and gaiety!!

Warm regards,

Vishnu.R.Nair

Once upon a time, there live some body organs and were performing their duty sincerely. One day the talkative tongue was jealous of the stomach, he said to his friends (Eyes, Nose, Ears, Hands and legs) that this lazy stomach knows only how to sleep and store food, while we are all here working hard but this stomach never does any work. All the Organs think that the tongue was absolutely right. Than the hands came up with a question, "What is the remedy for this problem?". And the tongue says, we should stop working for few days then he will not get any good to eat. Let him suffer from hunger. Then all of them agreed to the tongue advices and the follows it for some days.

After a few days the legs and hands were being withered and the tongue was also. All the body parts became weak, they did not have any strength to work and then some of the organs(hands, legs, eyes) became angry on the tongue. They said that if the stomach stores food then only we can love or survive, if not we can't live here. The hand said, the nose cannot stay without smelling and eyes cannot stay without seeing just like that we cannot survive without giving food to stomach. The tongue thinks for a while and slowly realized the mistakes and apologized to the stomach and other body organs. All of them forgives the tongue and lived together happily after. Now, all of them had much more strength to work.

The moral of the story is:-

"Unity is strength", when there is teamwork and collaboration, wonderful things can be achieved "

Abhinaya, 7th Airjet.

POEM

MY BEST FRIEND

My best friend is smart
She is half of my part
She is very good in heart
Stillness is her special art.

She is brilliant in study
Always keeps neat and tidy
Always be in punctuality
Intimacy will confine her beauty.

Hard work is her best quality
Always follows her duty
She is very piety
Sometimes she is very sweety.

MY BOOK HAS MANY PAGES,
WHICH HAS MANY IMAGES
IT GIVES ME MANY ADVANTAGES.

EVERY TIME I FLIP AND SEE
IT ALWAYS ADVENTURES ME
TAKES ME TO THE JUNGLE OF TREE.

THERE LIVED MANY CHARACTER IN AGES
THAT POTRAYS DIFFERENT PAGES
WITH VARIOUS IMAGES

IT FEELS JOY TO READ
I FORGET ALL THE NEED

CLOCK

Clock or chronometer is a device that measures and displays time. The clock is one of the most important devices in civilization. Clocks are often used as a symbol of time and mortality, and they have been featured in countless works of art and literature. The small hand indicates the hour, the big hand indicates the minutes, while the moving hands shows the seconds. The term "Clock" derives from the clogga, a late latin term to indicate a bell. The clock is one of the oldest human inventions, meeting the needs to measure intervals of time shorter than the natural units such as the day, the lunar month and the year. Clock is a periodic system by which time is measured.
